**Richard Sieracki**

Co-Chief Executive Officer

Rich is a delay and quantum expert with over 45 years in the construction and engineering industries.

Rich has acted an expert on numerous occasions in international and domestic arbitrations, federal and state courts, mediations, and alternative dispute resolution (ADR) proceedings.

Rich has worked on projects throughout Asia, Europe, the Middle East, and North and South America. He has worked for clients from a variety of sectors, including aerospace, buildings, defense, industrial, infrastructure, oil and gas, power and utilities, and technology. His expertise has particular focus in the construction, electrical utilities, and government contract sectors.

Rich has extensive experience in both damages and delay analysis. He is proficient in critical path analysis (CPA), analysis of project cost growth, productivity studies and other analyses related to issues arising from scheduling acceleration and disruption. He is also a skilled claims consultant with experience in construction management, delay and planning, programming and scheduling, and project monitoring. He has consulted for Fortune 500 companies and has over 11 years of industry experience in design and construction.

Rich holds a BS Civil Engineering degree and is a member of the American Bar Association (ABA), a member of the Association for the Advancement of Cost Engineering (AACE), a member of the Project Management Institute (PMI) and a member of the Project Management College of Scheduling.

**Education, Certifications & Honors**

Northwestern University J.L. Kellogg  
Graduate School of Management  
*Disputes Systems Design  
Executive Program*

University of Illinois  
*Bachelor of Science  
Civil Engineering*

**Professional Associations**

American Bar Association (ABA)

Association for the Advancement  
of Cost Engineering (AACE)

Project Management Institute (PMI)

**Publications**

- "Proving & Pricing Damages"
- "Outage Reviews: Project Management Issues"
- "Cost Implications of Management Audits"
- "Potential Costs to Utilities for Hazardous Waste Site Remediation"

**Selected Lectures and Seminars**

- Extensive lecturing experience on critical path schedule and damage issues to various organizations, including the American, Chicago and Detroit Bar Associations, the American Power Conference, the Association for the Advancement of Cost Engineering International, Western Council of Construction Consumers, National Association of Women in Construction, the Illinois Construction Land Symposium and others.
